WHEN FINISHING THE EDGES ON BIG JOBS OR RESURFACING SMALL TO MEDIUM CONCRETE AND MASONRY SURFACES, THE GRINDWIZARD IS SO VERSATILE AND EFFICIENT LARGER MACHINES WILL BE LEFT TO GATHER DUST.

↗ A low front profile allows grinding under many height restricted areas such as bathroom partitions.

Vacuum port and adjustable position lock for edging or conventional grinding ↘

Easy edging with a section of the 3 piece disc guard removed. Water and power controls are located near the operating position.

Heavy Duty Pro Discs:

Purple (Stripper) for rapid glue, paint and epoxy removal.

Grey for aggressive general purpose concrete grinding.

White for a smooth decorative finish.
