Smart Demo Saws are indispensable wherever steel, concrete or stone, cast iron pipes, car bodies, asphalt and similar materials have to be cut.

Be it in civil engineering, building construction, road construction, technical maintenance organisations or for landscape design, Smart has the ideal machine for every application.

The powerful 2 stroke petrol motor makes the machine suitable for any work site requiring no electrical source. This robust power unit and mechanical system is still lightweight and compact making the machine easy to use with less operator fatigue.

Featuring easier starting with the decompression valve and electronic ignition, semi automatic belt tensioner and ergonomically designed handle with all machine functions integrated for operator ease.
